AcuView | Real-time loan intelligence at your fingertips.

Identify loan stacking threat, detect fraud, and validate borrower information instantly with real-time loan intelligence.

WORLD'S FIRST PATENTED TECHNOLOGY

See What Some Borrowers DON’T Want You To See!

Real-Time Loan Intelligence

Built to protect every dollar you lend

AcuView

It is the only technology in the world that shows you in real time customer data.

It alerts you when your borrower is simultaneously applying for loans with other stores or online lenders.

Introducing the First and Only Real-Time Loan Intelligence Network

This isn't another credit report. It's a live network of lender-shared intelligence that flags high-risk activity before you approve the loan.

No other platform does this.
No one else can.

Real-Time Loan Application Tracking

Monitor borrower activity across the entire lender network in real time.

Instant Alerts Of New Borrower Activity Before Your Final Loan Approval

Get notified immediately when risky borrowing patterns emerge.

Verified Identity, Income, And Banking Details

Cross-check borrower information against multiple sources to detect fraud.

Patented Lender Privacy Keeps Their List Of Customers Safe

Lenders are protected and cannot see each other's list of customers.

The Lender Network Is Exploding

Every day more lenders join.

The AcuView network is growing at lightning speed, and every single new lender makes the system more powerful for everyone.

The More We Grow, The Smarter We Get

AcuView isn't just software; it's a living, breathing intelligence network that gets more powerful every single day.

With over 1 million borrower data points and new lenders joining daily, you're not just buying technology; you're joining a revolution that's transforming lending forever.

Data-Powered Protection

Access a rapidly growing database of real-time borrower trends and risk patterns across the lending industry, updating every minute.

Industry-Wide Visibility

Get insights beyond your portfolio to detect risk patterns before they impact your business, powered by the collective intelligence of hundreds of lenders.

Privacy-Focused Security

Maintain strict compliance while benefiting from network-wide intelligence and shared protection that grows stronger every day.

Network Stats

- **127+ Active Lenders** (Growing Daily)
- **1M+ Data Points** (Expanding Fast)
- **24/7 Real-Time** (Never Stops)

Your Impact

Every signup makes the lender network 7x more valuable for everyone.

The Lender Network Effect In Action

More Lenders = More Data = Better Decisions = Lower Risks For All = Greater Profits For All

The Hidden Crisis in Lending

Loan stacking is draining your profits, silently and daily.

- **37% of borrowers** hold multiple payday loans
- **25%** juggle four or more active loans
- **3x higher default rates** for stacked loans

AcuView changes everything.

How AcuView Works

Four simple steps to smarter lending decisions.

Submit Details

Enter borrower details via portal or API.

Scan Network

Check for matches, stacking, or red flags.

Get Results

Receive insights in milliseconds.

Make Decisions

Approve good borrowers and avoid bad ones.

All without ever sharing your customer's list.
Your data stays secure. Customer behavior becomes visible.

Don't lend blind. Lend smart.

AcuView reveals what credit reports and other data companies can't, giving you complete borrower intelligence before you say “YES”.

Turn your biggest risks into your advantage.

Real-Time Tracking

Track loan applications across multiple lenders in real time, not weeks later when it's too late.

Verify Identity

Check banking details, identity, and borrowing patterns in under 30 seconds.

Lender Network Intelligence

Leverage insights from 1M+ borrower data points across our growing lender network.

Lender Results That Speak Volumes

- **67% Reduction** in loan stacking
- **99% Faster** customer verification
- **< 1 second Processing**
- **Privacy-Focused Design**
- **Lender Network Effect**

Who Is AcuView Built For?

AcuView is designed for lenders who can't afford to guess, such as those operating in fast-moving, high-risk, or high-volume lending environments where every decision impacts profitability.

Powered by the Lender Network Effect.

Traditional Credit Checks vs AcuView

Traditional Credit Checks & Data Companies

- Show what borrowers did weeks or months ago
- Can't see multiple applications across lenders
- Can't detect identity manipulation

- Leave you vulnerable to loan stacking
- Increased bad loans

AcuView Real-Time Intelligence

- Shows what borrowers are doing in real time
- Tracks applications across multiple lenders
- Detects identity inconsistencies
- Identifies risky borrowers before approval
- Increases good loans and profitability

Easy 3-Step Setup

Quick Setup

- Seamlessly integrates with existing LMS software
- Minimal IT requirements
- Full training and support provided

Immediate Results

- See loan attempts in real time
- Gain actionable borrower insights from day one
- Start protecting your portfolio immediately

Ongoing Support

- Dedicated customer success manager
- Regular updates
- Training materials

The Early Bird Advantage

- No long-term contracts
- Full implementation support
- Dedicated customer success manager

Your participation doesn't just help your business — it helps build the infrastructure that protects the entire industry.

Building the Future of Lending Intelligence

AcuFi created AcuView to solve the industry's biggest blind spot: real-time borrower activity across all lenders.

Our Vision

A world where lenders make decisions based on real-time intelligence, not outdated credit reports.

Frequently Asked Questions

Is my customer data safe?
Yes. AcuView cleans all lender-identifying info. Your customers stay yours. We use advanced encryption to ensure complete data security.

How fast is the data updated?
Milliseconds. 3ms to be exact. AcuView is always live with real-time updates from our lender network.

Do you support storefront and online lenders?
Yes. AcuView is built for both environments with dedicated workflows and APIs.

Do you offer integration support?
Absolutely. We provide sandbox environments, comprehensive API documentation, and a dedicated customer success manager.

How long does it take to go live with AcuView?
Store lenders can be live in 30 minutes or less. API integrations are simple and easy, with sandbox testing available.
